Galleon

1954

THE 1954

GOLDEN GALLEON

Esther High School

Esther, Mo.

.....every individual in school is important whether students, teacher, cook, or custodian. Walter Cummings came to the Esther School system the year the National Lead Company shut down and the drought and dust bowl were at their peak. All was not sad in the year 1933 because the Esther School gained a valuable worker and friend. Clean healthy warm buildings are very important in a school, and for twenty years "Pop" worked his regular hours and yes; many, many extra hours in order that he could go home at night and say, "The day is done and I have served my best." Pop you not only served your best you served well. We are all proud of you and your associates. The school doors will always be open to you: You are a part of us.

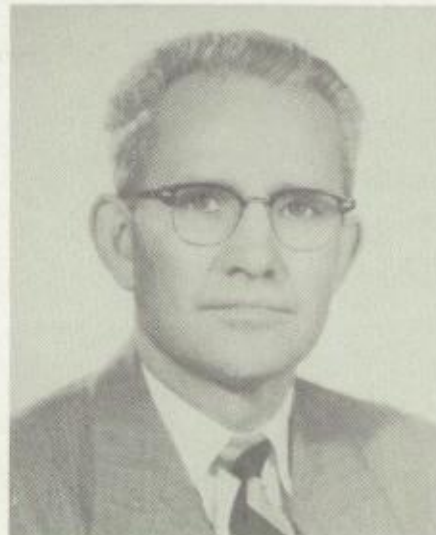

Psalms: 9

I will praise thee, O Lord with my whole heart, I will show forth all thy marvellous works.

Flat River, Mo.

A black and white photograph of a large, two-story brick building, likely a school or institutional structure. The building features a prominent entrance with double doors and a transom window. Several windows are visible, including octagonal ones on the upper floor. The word "ORIUM" is partially visible on the left side of the building. The foreground is a flat, light-colored area, possibly a courtyard or parking lot.
